SUBJECT

Compulsory Vaccination

Order herein 9678 9 mul 92-09 21 9 23 5.11

The vaccination bye-laws framed by the aforesaid Municipalities are affirmed with certain suitable alterations, and Copies of the bye-laws as affirmed are herewith forwarded to the Bye Com^r for information

2) One of the chief alterations effected is the omission of the provision for a female vaccinator. There is at present no female vaccinator in any of the three Municipalities and it is not likely that any will be available for employment. Moreover the financial condition of those Municipalities hardly admits of such a female vaccinator being employed even if they should be available.
